

CMMC for Microsoft 365 GCC High

ROI One-Pager | cmmcm365.us
by phraCTO LLC

CMMC Level 2 Phase 2 begins November 2026.

Most organizations need 12+ months to prepare. If you haven't started, you're already behind.

What's Included

- ▼ **SSP Language** — Copy-and-paste language for every assessment objective, ready for your SSP
- ▼ **Policies & Procedures** — Complete documents exportable to Word — not templates, finished work
- ▼ **M365 GCC High Configuration** — Step-by-step instructions with exact portal URLs and navigation paths
- ▼ **Evidence Guidance** — Per-objective: which screenshot, which page, which certification to reference
- ▼ **Progress Dashboard** — Track Met / Not Met / NA across all 320 objectives at a glance
- ▼ **Complete Coverage** — All 110 controls, 320 objectives, 735 solution records — nothing left out

Cost Comparison

	CMMC for M365	Consultant	GRC Platform	DIY / AI
Cost	\$997 once	\$50K–\$150K	\$10K–\$50K/yr	"Free" + 500hrs
SSP Language	Done (all 320)	Extra cost	Not included	You write it
Policies	Complete docs	Extra cost	Templates only	You write them
M365 Config	Step-by-step	You do it	Not included	Trial & error
Evidence	Per-objective	Verbal advice	Not included	Guesswork
Time to Value	Today	Months	Months	Months+
By Practitioners	Yes (CRP)	Varies	No	No

The Math

- \$997 is less than a single day of consultant billing (\$150–\$300/hr)
- \$997 is less than one month of most GRC platform subscriptions
- Unlike both, the work is already done — finished, implementation-ready content
- Start implementing today instead of waiting weeks for consultant availability

Who Built This

Built by phraCTO LLC — led by a Certified CMMC Registered Practitioner (CRP) and Microsoft 365 GCC High Expert with 25 years of federal IT experience. Every SSP statement, policy document, and configuration instruction was authored by people who understand both sides of the compliance table.
